

267-GK

THE ADLER 267-GK-373 HIGH-PERFORMANCE SINGLE NEEDLE SEWING MACHINE

**For Quality Joining and Piping Work
in the Upholstery, Tarpaulin, Leather
Goods and Luggage Industries.**

Features

- Unique feeding system (alternating pressers) easily handles materials that are difficult to feed, ensuring uniformly flat, quality stitching.
- High stroke of alternating presser feet adjustable up to 10 mm ($\frac{25}{64}$ ") to accommodate fluffy material and material layers of unequal thickness.
- High foot lift of 13 mm ($\frac{1}{2}$ ") easily handles heavyweight materials.
- Short base plate.
- Large hook on vertical shaft provides 60% more bobbin capacity than standard hook.
- Reversible feed.
- Minimum maintenance required.
- Special components and attachments provide increased versatility and wide-range applications.

Equipment

The machine consists of a single needle, medium-duty double lockstitch sewing machine with combined bottom, needle and top feed (alternating presser feet), drop feed and large hook on vertical shaft. Other features include: built-in bobbin winder; short base plate; safety clutch; timing belt; slide-type take-up lever; reversible feed; and plug-in type knee-activated presser foot lift.

Also available with the following special equipment: pneumatic foot lift FLP 12-1 for clutch motor and FLP 12-2 for electronic stopmotor; and automatic backtacking device RAP 12-2 for machines with electronic stopmotor.

Specifications

Stitch type	301 (double lockstitch)
Max. speed	2200 SPM
Max. stitch length	7 mm ($\frac{9}{32}$ ")
Max. foot lift	13 mm ($\frac{1}{2}$ ")
Needle system	134-35
Needle size	110-140
Thread	60/3-30/4 synthetic; 60/3-20/3 silk and 50/3-30/3 linen
Clearance under arm	285 mm x 115 mm ($11\frac{1}{8}$ " x $4\frac{1}{2}$ ")
Base plate	477 mm x 178 mm ($18\frac{1}{2}$ " x 7")
Max. motor RPM	1400 with 135 mm diameter pulley
Weight (net/gross)	38/57 kg (83.6/125.4 lbs.)
Diameter of hand- wheel pulley	95 mm
